RAJARSHI CHAKRABORTY

Bangalore, India | Email: rajarshi7474@gmail.com | Phone: +91 9433939953 | GitHub: github.com/X5464 | TryHackMe: https://tryhackme.com/p/OmegaR | LinkedIn: linkedin.com/in/rajarshi-cybersecurity/

PERSONAL STATEMENT

BCA Cybersecurity student with 4 internships and an 8.0 SGPA, actively building secure web architecture and offline hardware devices. Seeking to leverage a strong foundation in Python and Git version control to transition offensive security skills into rigorous software triage and quality assurance .

TECHNICAL SKILLS & CORE COMPETENCIES

- **Testing & Triage** : (Troubleshooted builds, navigated command lines, and managed Git version control for 4 internship environments)
- **Programming & Scripting** : (Utilized Python fundamentals, C, and Shell Scripting to consolidate 10 plus fragmented scripts into unified suites)
- **Web & Infrastructure** : (Integrated RESTful APIs and AWS Ecosystem components to deploy 2 live data driven applications)
- **Security & Defense** : (Analyzed 50 plus real time threat vectors and executed 3 successful zero day vulnerability responses)
- **Data Processing & IoT** : (Co engineered 1 agricultural IoT device integrating hardware sensors and the Sarvam API to deliver automated, multilingual voice alerts regarding crop health directly to farmers via call)

PROFESSIONAL EXPERIENCE

Offensive Cyber Security Intern | InLighnX Global Pvt. Ltd. | *May 2025 – Dec 2025*

- Accomplished the creation of a cohesive offensive security suite, measured by the integration of 6 custom tools including a TCP port scanner and subdomain enumerator, by architecting a unified web application with a tab based interface.
- Accomplished a reduction in scanning latency, measured by the rapid mapping of TCP ports 1 through 1024, by executing multithreaded network host detection scripts.
- Accomplished the demonstration of cryptographic weaknesses, measured by the successful recovery of secured files, by developing specialized PDF password crackers and MD5 SHA1 SHA256 hash cracking utilities.

Cyber Security Intern | Elevate Labs | *June 2025 – July 2025*

- Accomplished centralized threat monitoring, measured by the deployment of 1 foundational CTI dashboard (previous version of Sentinel AI), by executing rigorous network security audits.

Cyber Security Intern | Edu-versity & Wipro DICE ID | *Oct 2024 – Nov 2024*

- Accomplished the generation of actionable system insights, measured by the successful analysis of 50 plus complex real time threats, by monitoring simulated corporate pipelines.
- Accomplished recognition for proactive problem solving, measured by securing 1 formal Letter of Recommendation from the Academic Head, by resolving assigned network challenges.

Cyber Security Intern | Teachnook (IIT Roorkee Cognizance '24) | *Nov 2024 – Dec 2024*

- Accomplished automated reconnaissance, measured by successful web data extraction, by developing a custom Python crawler named Spiderweb.

Virtual Security Simulations | Forage | *Dec 2024 – June 2025*

- **AIG:** Executed technical ransomware bypasses and zero-day vulnerability responses.
- **Mastercard:** Designed phishing simulations and interpreted attack vector results to improve awareness.
- **Tata and Deloitte:** Assessed Identity & Access Management (IAM) and enterprise threat landscapes for both simulated corporate environments.

EDUCATION

Degree/Program	Institution	Timeline	Performance
BCA in Cybersecurity	Jain (Deemed-to-be University)	2024 – 2027	**8.000/10.0 SGPA** (Sem 3)
Minor: CSE & Adv. Tech	IIT Mandi (CCE)	2024 – 2025	**5.8/10.0 CGPA**
Class 12 CBSE	HM Education Centre	2024	**70.20%**

- **Academic Progression (Jain):** Consistent upward trend: Sem 1 (7.750) → Sem 2 (7.375) → Sem 3 (8.000).
- **IIT Mandi Trimester Performance:** Trimester 1 (3.7), Trimester 2 (7.6), Trimester 3 (6.0).
- **Leadership:** Core Team Member, AWS Cloud Club (Social Media & Technical Engagement).

SIGNATURE PROJECTS

VARS AGRI NOVA (IoT & Offline AI) | *Co-Lead Hardware-Software Architect*

- Accomplished automated crop health monitoring, measured by winning 1st Place at Research Horizons 2025, by co engineering an agricultural IoT device integrating hardware sensors and the Sarvam API to deliver multilingual voice alerts directly to farmers.
- Accomplished top tier competitive recognition, measured by securing 3rd Place out of 1000 teams at the JAIN Launchpad Festival, by executing successful hardware and software integration for offline data processing.

SENTINEL AI (Advanced Cyber Threat Intelligence Live Web Dashboard & API Integration)) | *Developer*

- Designed an upgraded CTI platform integrating VirusTotal and AbuseIPDB APIs for real-time threat feed enrichment. Live Deployment: https://sentinel-frontend-rpzi.onrender.com

SPIDERWEB (Automated OSINT) | *Developer*

- Accomplished automated reconnaissance data extraction, measured by the successful parsing of complex web structures, by developing a custom Python crawling tool.

IC POKÉMON (Gamified Web application for Indian Constitutional Law) | *Developer*

- Programmed a retro-style RPG pokemon game that gamifies the Indian Constitution, using legal articles as strategic battle mechanics.

AWARDS, HONORS & COMPETITIVE ENDURANCE

- **1st Place Winner** : Research Horizons 2025 (Agricultural Science category for VARS AGRI NOVA).
- **2nd Runner-Up (3rd Place)** : JAIN Launchpad 2025 - Glitch Pitch (Out of 1,000 teams for VARS AGRI NOVA).
- **Top 10 Finalist** : Corp Up Challenge, JAIN Launchpad 2025.
- **60-Hour CTF Endurance Finisher** : Successfully completed the Hck4G CTF / Con 2025, demonstrating extreme technical stamina under pressure.
- **South Asian Hackathon 1.0** : Core member of Team OmegaR, innovating in transregional Internet Governance.

CERTIFICATIONS & CONTINUOUS LEARNING

- **Security & Tech Certifications** : CompTIA Security Plus Training, Google Foundations of Cybersecurity, Cisco, Introduction to Cybersecurity, IIT Madras Python Course, AWS APAC Solutions Architecture.
- **Professional Development Certifications** : McKinsey Forward Program, IBM Collaborate Effectively, British Council Leadership Skills.

HOBBIES & INTELLECTUAL INTERESTS

- **Performance** : Pencil sketching, watercolor painting, and learning to play electric and acoustic guitar.
